6.5 Food and drink

ADDENDUM – Covid 19

During the outbreak of coronavirus, all staff have an important role to play in preventing the spread of infection. Staff are made aware of good hygiene practices such as washing hands and encourage children to understand the importance of this as well as avoiding touching their mouth, eyes and nose where possible.

Children will have access to hand washing including anti-bacterial hand wash and to sing 'happy birthday' all the way through while washing their hands. Hand washing is done throughout the day and especially before snack and lunch times.

Children will sit as socially distanced as possible and will never share their food. Staff will sit with the children to eat their lunch and will role-model hygiene and best practise.

After snack and lunch times all tables, chairs and any other surfaces will be thoroughly cleaned as well as children's lunch boxes.

Policy statement

We regard snack and meal times as an important part of our day. Eating represents a social time for children and adults, and helps children to learn about healthy eating. At snack and meal times, we encourage children to eat a variety of nutritious food,

Procedures

We follow these procedures to promote healthy eating in our setting.

- Before a child starts to attend the setting, we ask their parents about their dietary needs and preferences, including any allergies. (See the Managing Children who are Sick, Infectious or with Allergies Policy.)
- We record information about each child's dietary needs and parents sign the form to signify that it is correct.
- We regularly consult with parents to ensure that our records of their children's dietary needs – including any allergies - are up-to-date. Parents sign the updated record to signify that it is correct.
- We display current information about individual children's dietary needs so that all our staff and volunteers are fully informed about them.
- We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences, as well as their parents' wishes

- We take care not to provide food containing nuts or nut products and we are especially vigilant where we have a child who has a known allergy to nuts
- Through discussion with parents and research reading, we obtain information about the dietary rules of the religious groups to which children and their parents belong, and of vegetarians and vegans, as well as about food allergies. We take account of this information to be better informed
- We show sensitivity in providing for children's diets and allergies. We do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of her/his diet or allergy.
- We organise meal and snack times so that they are social occasions in which children and adults participate.
- We use meal and snack times to help children to develop independence through making choices, serving food and drink and feeding themselves.
- We provide children with utensils if required that are appropriate for their ages and stages of development and that take account of the eating practices in their cultures.
- We have fresh drinking water constantly available for the children. We inform the children about how to obtain the water and that they can ask for water at any time during the day

We provide semi-skimmed milk at snack time

- We inform parents who provide food for their children about the storage facilities available in our setting.
- In order to protect children with food allergies, we discourage children from sharing and swapping their food with one another.

Packed lunches

Children are required to bring packed lunches.

- ensure perishable contents of packed lunches are refrigerated or contain an ice pack to keep food cool;
- inform parents of our policy on healthy eating
- encourage parents to provide sandwiches with a healthy filling, fruit, and milk based deserts, such as yoghurt or crème fraîche, where we can only provide cold food from home. We discourage sweet drinks and can provide children with water;
- discourage packed lunch contents that consist largely of crisps, processed foods, sweet drinks and sweet products such as cakes or biscuits. We reserve the right to return this food to the parent as a last resort;
- provide children bringing packed lunches with plates, cups and cutlery; and
- ensure that adults sit with children to eat their lunch so that the mealtime is a social occasion.

Legal framework

- Regulation (EC) 852/2004 of the European Parliament and of the Council on the Hygiene of Foodstuffs.

Further guidance

- Safer Food, Better Business (Food Standards Agency 2011)
